Validation

What makes us different

Global Telecommunications Operator

eIDAS qualified

Over 25 years transforming analog into digital processes

Listed on the Madrid, Paris and New York Stock Exchanges

BME Growth

OTC **QX**

ISO/IEC 27001 certificate standard

Solution

Registered email and SMS

Registered email

WHAT IS IT?

E-mail converted into a document with value as evidence in court if necessary. Allows you to add attachments (up to 5MB)

HOW IS IT USED?

It is not necessary to use any specific software. Use your regular email service to send the emails and add us in the copy field: correo@certificado.lleida.net.

You can also integrate this service with your CRM/ERP via API.

Our API available at <https://api.lleida.net/dtd/mailcert/v1/en>

WHAT DOES THE RECIPIENT RECEIVE?

An email with the attached documentation (if any).

Registered SMS

WHAT IS IT?

SMS up to 612 characters converted into a document with value as evidence in court if necessary.

HOW IS IT USED?

SMS can be sent in two ways:

- From our **platform Tools** <https://tools.lleida.net>.
 - Uploading of data in CSV file format
 - Customization and scheduling of deliveries
 - Other functionalities.
- Through an **integration** with your CRM/ERP **via API**:
 - API available at <https://api.lleida.net/dtd/sms/v1/en>

WHAT DOES THE RECIPIENT RECEIVE?

An SMS with the text and with the notice that it is a certified electronic communication by including the text "(Registered SMS)"

Solution

Electronic signature: Click & Sign

Characteristics

- ✓ Advanced electronic signature with documentary evidence to the document signing processes
- ✓ We provide our API to make easier the integration with your CRM or ERP.
- ✓ No need to install any software.
- ✓ Responsive online platform (compatible with all devices).
- ✓ Send documents and receive them signed instantly.
- ✓ Cheaper than postal mail.
- ✓ Conversion rates up to 96% thanks to the user satisfaction.
- ✓ In compliance with eIDAS, E-SIGN Act and OECD - UNCITRAL - ICC regulations.

Flow model: REMOTE SIGNATURE

We propose the following flow for signing documents launched from a CPC Armenia agent

Lleida.net issues, as trust service provider, evidence that provides a record of all the actions carried out during the signing process, including dates and times, a description of the event or action, the associated document and relevant information, as well as the type of signature used.

Time Stamp
